

cellflo⁶tm

powered by LIEF LABS RAWS

A proprietary performance green tea extract

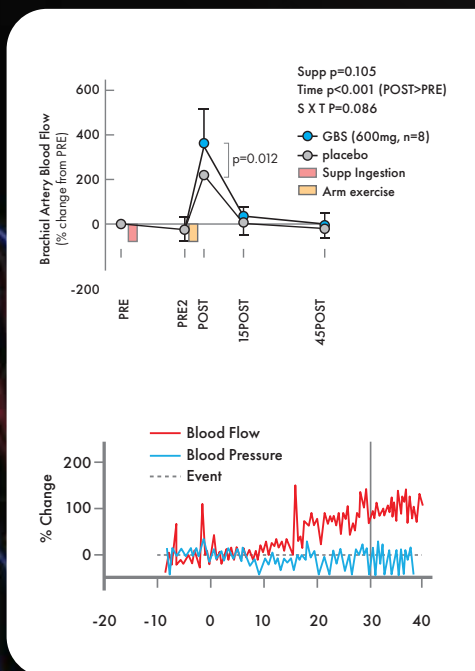

CellFlo6TM is designed with specific levels of catechins to help support cardiovascular health, muscle recovery, metabolic health, immune health, and weight management. It may also reduce oxidative stress and fight free radical damage at the cellular level.

- ✓ Clean label ingredient
- ✓ Low dose of 300 to 600 mg
- ✓ Contains well-studied catechins

Applications

- | | |
|--------------------|------------------------|
| Energy & Endurance | Recovery |
| Meal Replacement | Pre/Intra/Post-workout |
| Protein Powders | RTD |
| Baked Goods | Weight Management |
| Functional Gummies | Functional Foods |

The Science Behind CellFlo6TM

Green tea catechins have been studied extensively for their effects on cardiovascular, immune, and metabolic health as well as weight management. CellFlo6TM is created using a double-extraction process that increases catechins, specifically galloylated procyanidins, which are believed to contribute to its high performance and muscle recovery properties.

In a double-blind, placebo-controlled, clinical study of CellFlo6TM, blood flow in the brachial (upper arm) area increased without a concomitant rise in blood pressure.
